

Overview of achievement of indicators/benchmarking - December 2003 – June 2008

EMWIS overall objectives:							
Improved regional water policy							
Evaluation Criteria on	Bench Mark Indicators	Base line at start project December 2003	Status in December 2004	Status in December 2005	Status in December 2006	Status in December 2007	Status in June 2008
	Number of joint declarations by Euromed water directors	None	None	1 Rome, Nov'05	2 Athens, Nov'06	3 Bled, Dec'07	3 <i>Next one held in Athens, July'08</i>

EMWIS project purpose:									
To capitalise experiences in Euro-Mediterranean countries									
For use of Evaluation Criteria on	Bench Mark Indicators	Base line at start project Dec'03	Status in Dec'04	Status in Dec'05	Status in Dec'06	Status in Dec'07	Status in Jun'08		
Efficiency - Effectiveness - Impact - Sustainability	P1 Number of working groups created	None	0	0	4 Non conventional water resources Extreme phenomena Participative approaches sanitation services and domestic pollution	5 Non conventional water resources Extreme phenomena Participative approaches sanitation services, domestic pollution water monitoring	5 Non conventional water resources Extreme phenomena Participative approaches sanitation services, domestic pollution water monitoring	5 Non conventional water resources Extreme phenomena Participative approaches sanitation services, domestic pollution water monitoring	
	P2 Number of MPC representatives involved in each group	0	0	0	11 (average)	11 (average)	11 (average)		
	P3 Number of regional seminars organised involving participants from at least 6 MEDA countries	0	0	1 Rome, Nov'05	3 Algiers, June'06 Athens, Nov'06	5 Madrid, July'07 Bled, Dec'07	5 Madrid, July'07 Bled, Dec'07		

Expected result A: Increased availability of water information								
For use of Evaluation Criteria on	Bench Mark Indicators	Base line at start project Dec'03	Status in Dec'04	Status in Dec'05	Status in Dec'06	Status in Dec'07	Status in June'08	
Impact	A1. Number of National websites launched by the NFPs OVI = 14	14	15	15	15	15	16	☺
Efficiency - Effectiveness - Impact	A2. % of users satisfied based on the results of surveys carried out by at least 2 NFPs and EMWIS Technical Unit at the regional level	-	-	93%¹ Morocco	96%² Algeria	-	83%³ Algeria	☺
Efficiency- Impact	A3.1. Number of e-flashes published	7	17	29	41	52	62	☺
Efficiency- Impact	A3.2. Number of subscribers to the monthly eFlash OVI = 3000	0	7 054 (AR: 54, EN: 4900, Fr: 2100)	8 453 (AR: 76, EN: 5898, Fr: 2479)	9 812 (AR: 179, EN: 6781, FR: 2852)	12 183 (AR: 402, EN: 8472, FR: 3309)	14 260 (AR:560, EN: 9900, FR: 3800)	☺
Efficiency- Impact	A3.3. Number of citations in relevant information sources, media and websites	0	3	53	> 100	> 120	> 130	☺
Efficiency - Effectiveness - Impact - Sustainability	A4. yearly number of visits recorded OVI: 30% yearly increase		197.958	378.608 (+91%)	753.318 (+98%)	786.446⁴ (+4%)	1.099.605⁵ (+40%)	☺

¹ Based on 29 replies to a survey made after an EMWIS information seminar in Morocco in 2005

² Based on 33 replies to a survey made after an EMWIS information seminar in Algeria in 2006

³ Based on 35 replies to a survey made by Algerian NFP in 2008

⁴ This is a pessimistic estimate as activity logs for 4 months were not accurate in 2007

⁵ Calculation based on 12 months, i.e. Nov'07-Oct'08

Expected result B: Improved Sharing of information at regional and national levels								
For use of Evaluation Criteria on	Bench Mark Indicators	Base line at start project Dec’03	Status in Dec’04	Status in Dec’05	Status in Dec’06	Status in Dec’07	Status in Jun’08	
Efficiency - Effectiveness	B1. Percentage of institutions that have provided information to NFPs by the end of the project ⁶						Not available	☹
Efficiency - Effectiveness - Impact - Sustainability	B2. Number of NWIS plans developed by the MPC countries after the feasibility study carry-out by EMWIS OVI = 5	-	-	0	4 Algeria, Lebanon, Jordan, Tunisia	4 Algeria, Lebanon, Jordan, Tunisia	5 Algeria, Lebanon, Jordan, Tunisia, Morocco	☹
Efficiency - Effectiveness - Impact - Sustainability	B3. Number of National information seminars held with a significant representativeness of national decision makers, stakeholders and water actors (number of participants, and their level) OVI= 6	3	4	7	8	13 Cyprus, Egypt Jordan, Palestine, Tunisia	13 Cyprus, Egypt Jordan, Palestine, Tunisia	☺
Efficiency - Sustainability	B4. Number of NFP using the common EMWIS information standards (metadata) OVI= 5	0	0	3	5 Algeria, France, Jordan, Spain, Tunisia	8 Israel, Lebanon, Palestine	8	☺

⁶ Indicator not assessed as relations with information providers is usually based on non formalised exchanges with NFPs
