XIth International Symposium on Environment, Catalysis and Process Engineering

Introduction

Following the great success of the previous meeting (ECGP'1 Fez Nov. 95, ECGP'2 Fez May 98, ECGP'3 Fez November 2000, ECGP'4 Fez April 2003, ECGP'5 Fez April 2006, ECGP'6 Marseille, France June 2007, ECGP'7 ENIM – Rabat April 2008, ECGP'8 Djerba – Tunisia, ECGP'9 -2010 Settat - Morocco, ECGP'10 – 2012 Fez - Morocco and being aware of the serious problems related to the environment, the Moroccan Association of Catalysis and Environment organizes in collaboration with “Ecole des Mines de Douai” and “Université Lille1 Sciences et Technologies” the XIth International Symposium on "Environment, Catalysis and Process Engineering» on 26, 27 and 28th June 2013.

Four half-day sessions will deal with the latest researches in the fields of environmental protection and of transformation and valorisation of waste/biomass and discussions about the future.

TOPICS

- Clean and End-of-Pipe catalytic technologies for the environmental protection : clean fuels and air pollution control
- Transformation of waste/biomass to useful materials
- Valorisation of wastes in civil Engineering and environmental impacts
- Analysis and water treatment

DEADLINES

- January, 31th 2013: submission of abstracts (1 page maximum)
- March, 1st 2013: Acceptance of abstracts and demand of extended abstracts.
- April 2013: Final programme and information on registration and accommodation.

Selected papers will be published in Journal devoted to the previous topics
